

D DILLI BABU

Chennai, Tamil Nadu, India

(+91) 6382133791 — dillidefe@gmail.com — LinkedIn — GitHub

Education

SRM Institute of Science and Technology, Chennai

2022 – 2026

B.Tech. in Computer Science and Engineering

CGPA: 8.45/10

Kendriya Vidyalaya, Anna Nagar, Chennai

2020 – 2022

Class XII (CBSE) — **69.6%** — Class X (CBSE) — **72.6%**

Experience

Full Stack Development Intern

June 2025

KnackForge Soft Solutions, Chennai (Offline Internship)

- Independently built *Movidex*, a MERN stack movie management platform, during a mentor-guided learning internship.
- Implemented secure JWT authentication, role-based access control, dynamic watchlists, and review/rating features.
- Developed scalable RESTful APIs and modular React components, applying best practices from mentor feedback.
- Delivered 2,000+ lines of reusable, maintainable code in **React**, **Node.js**, **Express.js**, and **MongoDB**.

Web Developer

April 2025 – May 2025

Royal Vision Institute of Hotel Management

- Developed and deployed a responsive 7-page website, improving mobile load speed by 35% and reducing bounce rate by 18%.
- Designed high-fidelity Figma prototypes based on client feedback, reducing design revision cycles by 40%.
- Integrated Gmail SMTP for automated form responses, cutting manual follow-ups by 60%.

Technical Skills

- **Languages:** Python, C, C++, Java, JavaScript
- **Web Dev:** React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Bootstrap, MongoDB, MySQL
- **Soft Skills:** Excellent Communication Skills, Good Leadership Qualities

Projects

Movidex – Full-Stack Movie Management Platform

June 2025 – July 2025

GitHub Repository

- Built during internship at KnackForge, applying full-stack skills in a mentor-guided environment.
- Develop JWT authentication, role-based access, watchlists, reviews, and an admin dashboard with real-time updates.
- Structure scalable REST APIs and integrate protected routes using **React Router**.

Student Performance Analysis (Team Project)

October 2024

GitHub Repository

- Analyse 900+ student records to identify performance patterns and group students for targeted support.
- Achieve 85% clustering accuracy using **K-Means** after data preprocessing and feature optimisation.

Smart Room Automation System — IoT

April 2024

- Design a motion-triggered auto-door using **Arduino Uno**, **PIR sensor**, and **Servo motor**.
- Program in **C++** for 95% reliable real-time motion detection after sensor calibration.

Certifications

Employment Communication: A Lab-Based Course — NPTEL, IIT Kharagpur (Jan–Mar 2025, Elite)

Introduction to Machine Learning — NPTEL, IIT Kharagpur (Jul–Sep 2024)

Demystifying Networking — NPTEL, IIT Bombay (Jul–Aug 2024, Elite)

Build a Modern Computer from First Principles: From Nand to Tetris — Coursera (Oct 2023)
