

D DILLI BABU

Chennai, Tamil Nadu, India

(+91) 6382133791 — dillidefe@gmail.com — LinkedIn — GitHub

Profile

B.Tech Computer Science student skilled in full-stack development with **React**, **Node.js**, **MongoDB**, **JavaScript**, **HTML**, and **CSS**. Strong foundation in data structures, algorithms, and software engineering principles. Passionate about building scalable, secure web applications and exploring **AI**, cloud computing, and emerging technologies.

Technical Skills

- **Languages:** Python, C, C++, JavaScript
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Tools:** Git, VS Code, Postman, Figma

Experience

Full Stack Development Intern

June 2025

KnackForge Soft Solutions, Chennai (Offline Internship)

- Selected as the sole full stack intern, completing a 4-week offline internship focused on hands-on MERN stack development.
- Independently developed *Movindex*, a movie management platform featuring secure JWT authentication, admin access control, dynamic watchlists, and review systems.
- Gained exposure to production-grade API design, RESTful route structure, and modular front-end architecture using **React**, **Node.js**, **Express.js**, and **MongoDB**.
- Participated in code reviews and mentor sessions to align design decisions with professional development standards.
- Authored and maintained 2000+ lines of clean, reusable, and tested code across back-end and front-end components.

Web Developer

April 2025 - May 2025

Royal Vision Institute of Hotel Management

- Developed a responsive multi-page website using **HTML**, **Tailwind CSS**, and **JavaScript**.
- Created a Figma prototype based on client requirements.
- Integrated Gmail for contact form functionality to enable direct communication.

Projects

Movindex – Full-Stack Movie Management Platform

June 2025 - July 2025

GitHub

- Developed a full-stack MERN app with JWT authentication, role-based access control, and personalized movie watchlists.
- Implemented admin dashboard for CRUD operations on movie data, enabling dynamic content updates.
- Built review and rating system with backend validation and average rating computation.
- Designed modular React components and protected routes using **React Router** and **sessionStorage**.
- Tested features with 50+ movies and multiple user roles to ensure secure, scalable interaction.

Student Performance Analysis (Team Project)

October 2024

GitHub

- Analyzed 900+ student records using **Python** to uncover performance trends.
- Handled data preprocessing, visualization, and clustering using **Pandas**, **Matplotlib**, and **scikit-learn**.
- Implemented **K-Means** to group students based on academic patterns.

Smart Room Automation System — IoT

April 2024

- Developed a motion-triggered auto-door using **Arduino Uno**, **PIR sensor**, and **Servo motor**.
- Programmed in **C++** for real-time motion detection and door control.
- Achieved **95%** motion detection reliability via sensor calibration.

Education

SRM Institute of Science and Technology, Chennai

2022 - 2026

B.Tech in Computer Science and Engineering

CGPA: 8.43

Kendriya Vidyalaya, Anna Nagar, Chennai

2022

Class XII (CBSE)

Certifications

- **Bootcamp on Cloud Computing** — CDAC Chennai & SRM IST *Jan 2025*
Hands-on exposure to **Ubuntu**, virtualization, and cloud infrastructure under the FutureSkills PRIME initiative.
- **Introduction to Machine Learning** — NPTEL *Sept 2024*
Expertise in supervised learning (regression, classification) and Python implementation.
- **Integrating AI and ML for Next-Gen Electrical Engineering Solutions** — SRM IST *March 2025*
Integrated AI/ML in modern electrical systems through practical projects and lectures.

Achievements

- **Certificate of Appreciation** — SRM IST *Aug 2024*
Coordinated logistics, photography/videography, and the live YouTube broadcast for the AICTE-ATAL Academy FDP on "*High-Performance Computing and its Applications*."
